Fax: 02-9782 1955 (internal 2 1955)

To: Manager Train Control Sydney, Supervisor Network Control, Operations Control.
From: Paul Goucher.
Requested by: Sydney Train Control.
Date: 6th December 2003.
Subject: Approval to Operate Locomotive 8606 in the City Underground.

6th December 2003

Locomotive 8606 is approved to operate on the Rail Access Corporation network.

Approval is given for locomotive 8606 to operate in the City Underground as advertised in STN 2137-2003, **the following conditions shall apply:-**

1. The speed of the train at Wynyard and Town Hall stations must be reduced to 15 km/h in the tunnel prior to the platform and 10 km/h when traversing the platform.
2. When in the City Underground 8606 is allowed to have only one pantograph raised at any given time.
3. All crews working trains to which this locomotive is attached must be given a copy of this TOC Waiver or made aware of its contents.

This TOC Waiver has been given following consultation with the Track, Structures and Overhead wiring engineers in RIC.
